Thread: [Twitch Badge Collection](#)

For anyone who collects Twitch Badges, what are yours looking like right now?

This is mine so far, still got 1 more coming that I'm going to go for when it comes out sometime this month.

Is this any bit of a common thing that people try to do? You have quite a collection there haha. Shoutout to those Borderlands ones that caught my eye right away. How do you even get all of these though?

I'm in a discord server that was created by someone who uses Twitch's API to notify everyone when a new badge comes out and instructs on how to obtain it.

Ooo that's pretty cool. Dude is the damn twitch badge plug lmao. I have a few of them, but I never really picked up on how or when I got them.

Yeah, most are easy to get. Just something I ended up getting into.

Well it definitely suits you given all of the streaming and everything that you do as well as on Twitch.

There's a "watch for 30 minutes" one right now for the new Ghost of Yei game.

I assume you mean Ghost of Yotei?

Funny enough though I totally forgot that releases today and your post just reminded me. I LOVED Ghost of Tsushima and 100% it as well as the DLC. Needless to say, I'll be picking up Ghost of Yotei.

Yeah, that game lol.

The badge you get for subbing to a streamer streaming it looks dope. It's like a onyro mask.

I see moist playing it right now so I'll probably throw him up on the side. I don't wanna catch much if anything in terms of the story, but I am curious to see some more gameplay. I imagine it will be pretty in line with Ghost of Tsushima though and so I see no reason why I wouldn't love it all the same.

Yeah, I just put a stream on my 3rd monitor. It's only 30 minutes until you see it notify you when you obtain it.

Works out honestly. I was looking for something new to throw up for background sound anyway lol. Had the office playing before that, but just wanted to put a stream up instead. Little more chill.

The sub badge is the mask one near my name in the photo.

The watch badge for 30 minutes is the 4th one in the 2nd row.

Sub badge one is dope. The other one is alright, but definitely not as good. I believe that's a symbol or something off the cover art.

Yeah, hard to see. I would assume it's the symbol of the game.

Yeah I ended up seeing others with it and the name of it. It was indeed what I thought from the cover art. Makes sense.

I lowkey wish I started collecting badges back then, I would have had way more.

I assume from that discord server you're in you've seen others who have a lot more than you?

Is every badge sort of a one and done kind of deal? You get that initial chance at them in whatever way and then they can NEVER be obtained by anyone ever again?

Most of them, yeah.

Bummer for any you missed out on, but makes all of the ones you do get feel more exclusive. Seems like they're the equivalent of awards for you on HF ?

Not sure if you can anymore, it was subbing to a streamer during some sonic type event.
