Thread: [Anyone been playing the new Skate?](#)

**Pimping** - October 1, 2025, 11:14 pm

I used to love playing skate 2 and 3 and now there is a new skate 4 that you can play for free I have been playing it and it is fun but i dont think it compares to the originals. its still in development though so i will be following it and seeing if it improves

would recommend playing it. i dont even do much of the challenges in game i just listen to some music while skating around

I've seen a few different people stream it, but it's not what I expected the game would be like. I didn't play the previous skate games to be fair, but when I saw this new one I literally went to my friend who have played the previous ones and asked if this is actually anything like those previous games. I know it's just early access as well, but I feel like all I see people do is try to do some crazy trick in the same spot off of a building or something over and over and over haha. Not to say that can't be fun of course, obviously it is to many, but again it just isn't what I expected it to be.

I seen those type of videos too on youtube and IG reels some of them are impressive but its not what the whole game is based on

you can do different challenges to level up or just anything you want. its very free roam so you can choose how you wanna play. im hoping they add different areas/spots or just anything cool in general.. since i can see how the current map is gonna get boring fast

I guess the kind of thing I described is just what a lot of people prefer to do usually? I went to multiple streams and they'd be doing the same thing. Again though, it's early access so it's probably easier and more appealing to just default towards something like that versus if you had the full game, that progress would save for, you have access to everything on, etc, you'd surely be more inclined to actually PLAY more of the game.

I feel the same way mate — Skate 2 & 3 really set the bar high, so it's tough for anything new to capture that same vibe. Skate 4 does have potential though, and since it's still in development, there's a chance it will improve a lot with updates. I also enjoy just cruising around in free skate mode with some music on, it's relaxing and makes the game worth checking out even without focusing on the challenges.

I haven't. I honestly was never interested in the Skate games.

What about the Tony Hawk games? While I never got into Skate, I did love the Tony Hawk skateboarding games.

**Lefty** - October 2, 2025, 2:03 am

I haven't but I think I will give it a go, even with the recent criticism

It's in free early access right now so it can't hurt to give it a try and see what YOU think.

Na, I just never got into those type of games.

**Bastille** - October 2, 2025, 11:16 am

It's been a while since I played to a Skate game, I was into skateboarding for like 10 years tho, time flies ...

Is this game still popular ? Now I only see scooters ... Skateboarding was the peak of the 90s / 00s culture, playing guitar, drinking beer, hacking .. damn

**m0hx** - October 2, 2025, 11:22 am

I played it, its good.

did they patch the flying glitch yet lol?

**Nate** - October 2, 2025, 11:40 am

Havent touched the new skate yet, but I been a player of skate 2. Currently Im actually playing Tony Hawk remastered

oh man. The good old times!  
To bad they financially ripped the game apart..

Playstation one. Playstation portable..  
Good times to play TonyHawk

Spoiler [\(Click to View\)](#)

I have 55 hours since launch and have almost 100% the game, honestly it's not horrible but it's not even close to skate 3 which I have like 1k hours in.

Main issues for me:

the daily challenges are repetitive and boring  
not enough realism ie board scratches/shoe wear/wheel flatspots etc  
graphics look like fortnite  
dialog in the game is trying too hard to be "skater"  
missing tricks like darkslides from skate 3  
game feels too microtransaction focused because it's free  
fake hall of meat  
friends are invisible  
no game of S.K.A.T.E  
no deathraces

If they manage to fix some if not all of these, it could rival skate 3 but I doubt they will.

High hopes for season 1 next week.

I feel like daily challenges in video games have gotten so boring and easy.

They are only there to get you to login for the bonus, instead of actually being enjoyable.

**plops** - October 4, 2025, 7:55 pm

Tried it out today.

Its okay for a free game, I do find it pretty bland. Maybe I am romanticizing my memories of previous skate games but this one comes across as too animated, cringey dialouge and child like in its simplicity.

I remember the older games feeling a bit gritty and more challenging. It feels like everything kind of clicks to make it fun/easy.

Idk. Its still worth a try, im sure some people will get their dopamine kicks from it.

Nah. The first one was cool, but I never played any further than that.

**Mix** - October 6, 2025, 2:59 pm

I have been playing it here and their but have seen a few clips recently with a load of funny glitches which I cant lie makes it feel more like skate 3.

I like the speed glitch where you can curl into a ball and just speed across the map hahaha

I find myself doing it but messing up the jump at the end some times making me lose all my speed.

Never played a single Skate game. The only Skateboarding game I ever played was Tony Hawk's American Wasteland.
