Thread: [What is a feature you would like to see with Bytes!](#)

Hey!

Personally I think bytes are underated and not used enough around here.

What would be a great feature you think should be added to the site that involves bytes?

To buy more awards with them.

I think I speak for a lot of people here: Byte Roulette.

Maybe an unpopular opinion but I think deals done on HF has to be with bytes would not be a bad thing.

more awards and more gambling

I would like to see blackjack table but with other members, just everyone sitting at the table, some leaving frustrated and others with a smile :D

It would be nice if there was at least 1 more award that could be bought with bytes. Maybe rotate it in and out with the Bytes Bag award an time the other awards rotate too. Poker and or Roulette with bytes would be nice as well. A different way to gamble them in convo as well. I know a Dice game was potentially going to come for such.

I would love to see bytes becoming a real-world crypto coin.

I would love to buy and sell services in here for bytes

Jamika - October 2, 2025, 2:33 am

Awards , or may be adding crews back with lower requirements

This or poker with other members would be great and with a private convo room as well haha.

Gaining bytes from Convo at a okay rate would also be great tbh.

Not at a crazy amount of bytes but enough to get chatting going.

Ofc /flips should be excluded & moderation on chat should be increase.

I think they are pretty perfect right now. I like them for sportsbooks a lot. Prevents me getting into real gambling.
