Thread: [What manga had the worst Anime adaptation?](#)

HerrWinston - *October 2, 2025, 6:01 am*

We all know converting Manga into animes can go either a good way or horrible... I had a few animies where the manga wasnt recognisable at all but also a few where it was even better!

The worst adaptation in my opinion was Lord of mysteries, leaving out 90% of the story and the most important parts for the plot ;/

What would be your answer?

I think Tokyo Ghoul. It is considered to be Top 5 best Manga in the world. Best for me. But after the first season of Anime it became complete BS.

Honestly, gotta go with Akame ga Kill, the manga was way better, the anime just changed everything at the end
