Thread: [The old games that still bring the best memories](#)

Yanix - October 2, 2025, 7:21 am

Some games never really leave us, no matter how much time passes. Whether it's a classic video game, a childhood board game, or even playground games we used to play with friends, these old favorites carry a sense of nostalgia and joy that's hard to beat.

They remind us of carefree moments, laughter with friends, and simple times when fun didn't come with rules or stress—just pure enjoyment.

What are the old games that still bring back your best memories?

HerrWinston - October 2, 2025, 7:23 am

I must say either Starcraft II or Star Wars: Empire at War, i love both games with my heart and soul, countless hours and nights as a 12 year old on call with 3 20 year olds that came back from a hard day at work just hitting Arcade games like Hero Line XD Sadly lost access to my old starcraft II account and never found these guys again lmao

Laughing Man - October 2, 2025, 7:23 am

Counter-Strike franchise and I still play.

I believe classic World of Warcraft would now count as an old game.

Apart from that I love the AoE series & Cossacks!

I dunno, I got bored for awhile and ran bots for about a year.

Made some decent money.

I haven't used a bot in ages.

What skills is it good for?

I used AI bots.

Master AI is great for firecape

Guester is great for questing

If you want to run with no risk... I use... Sammwhich scripts. it's a stand alone script setup

Wait, what? They have questing bots? That's amazing. Risky or safe?

If you only use them every few days, doing only 1-2 quests at a time you are fine.

Some people turn them on and dive bomb quests and you get caught pretty quickly.

If you want to share me your login, and what quests you want done I can do some of them via the bot.

Man leaned up against a window playing pokemon yellow as a child. It was a wild adventure. I used to get so mad. I also still remember the first time I beat the elite 4 and my rival.

I still get heavy nostalgic feelings the once a year I decide I am going to play it.

Nostalgia is playing Oregon Trail.

I remember when my brother and I used to play Starcraft all the time ? Those moments bring back memories of when life was simple, and all we cared about was enjoying the game.

sharn - October 26, 2025, 11:48 am

I spent hours playing Quake 3 with my friends.

Every match was full of chaos.
