Thread: [Hacker like movies / series?](#)

onlineuser | D3RFER - October 2, 2025, 4:20 pm

I've watched a lot of different shows that either completely involve hackers or feature them to some extent.

Blacklist, Mr. Robot, Suits, Die Hard.
Any recommendations for new ones I could watch?

NCIS: Tony & Ziva if you hate yourself. I've also been wanting to watch CSI: Cyber, but that apparently uses 'hacking' as a plot crutch, too. There's also Silicon Valley.

Silicon Valley caught my attention for some reason.
Will definitely check it out.

Both great movies.

Yeah, that's such a classic. So difficult to beat.

Hackers had like the best mix of how the people in the scene was back then and even some unrealistic stuff but it all tied together so nicely. the colors/vibe of the movie was amazing aswell

Hacker (2016) is pretty good imo, it's more about carding and social engineering though.

The IT Crowd

The humor is timeless.

Silicon Valley is my favorite. Halt and Catch Fire is good too.

Unfriended or Unfriended: Dark Web are good online movies.

Hacker 2016

The acting and everything is pretty lack luster but the actual reality of the journey of being a hacker was the most realistic i have ever seen

Hacker and Unfriended are both decent

I think hands down Mr Robot is the best hacker drama tv show that I have ever seen. So much effort put into the whole series
