Thread: [Anybody playing Skate 4?](#)

HerrWinston - October 2, 2025, 4:41 pm

Have seen it trending on tiktok recently and I am installing it as I write this, seems like a fun and relaxing game and I know of a few friends who play it, so I wanted to know if anyone plays it too? Or ever played a skate game ^^

Yes, I have been playing it a little when I find time. Release day I found the game to be quite buggy with the missions and what not but after they fixed it it seems to be running okay.

Is this free to play? I've seeing skate pop up in steam when I load something else up. Wasn't sure if it was 4 or some freemium alternative.

If you enjoyed the skate games I would for sure say give it a go. currently it has a few missing features that the older games did have but at least the game is free and they havent put a heavy pay wall on anything (yet)

Nice man, okay. Looks like I'm downloading it. I had played the first one when it came out and it was so fun. The controller mechanics were so unique too. I am sure they are the same.
