Does anyone here play the Solo Leveling game called Solo Leveling: ARISE?

It's on netmarble, not steam or anything sadly, but it's very good.

Free to Play friendly, what level are you guys if you do play it?

I'm currently Level 118

It's not afk'able, but there is auto-play. I never used it though.

6 confirmed season I heard, 3rd season would probably be late 2026 is my guess. But it is coming, I recommend reading the Manhwa as well.
