Thread: [Instant one million dollars, or restart your life at 10?](#)

JoshAllen - October 2, 2025, 9:02 pm

This is a question I think about daily. I used to say 10, but now I think I would take the \$1m.

What would you guys do?

10 years old*

What would you guys do?

Restart life at 10? Like 10 years old?

no way I am restarting, I have worked too hard for this shit.

Nate - October 2, 2025, 9:19 pm

Probably 1 million dollars, I dont think I'd like to be a kid nowadays..

Maybe if I get to keep my knowledge/memories though

Jinu - October 2, 2025, 9:23 pm

I would rather choose to restart my life at 10.

So that I can earn more than millions as well as correct my mistakes.

oRequiem - October 2, 2025, 9:32 pm

I don't think so honestly, maybe if it were way more where I wouldn't have to worry about making more money ever in my life.

Deany - October 2, 2025, 9:33 pm

If I get to keep my current knowledge , 10. Because just buy all 1st ed shadowless charizards and you'll have that much maybe more lol.

P??sonl?af - October 2, 2025, 11:44 pm

Depends, do I go back in time when I was 10 years old or am I 10 years old in this day and age?

Do I keep my memory in either situations.

If I would go back in time then I would take the 10 years old.

Should not be super hard to make more than 1 million knowing what you know now.

For example, Invest hard in BTC xD

6 - October 2, 2025, 11:56 pm

Restart life at 10 but i would like the same wives and kids and family

JoshAllen - October 3, 2025, 6:52 am

I respect that. I would want the same.

Laughing Man - October 3, 2025, 6:52 am

Restart at 10, because there are many mistakes I'd change, however butterfly effect and all so maybe 10 million

King Joey - October 3, 2025, 6:56 am

Everything happens for a reason, anybody would wish to go back intime to change an event or whichever reason. I'd take the Million.

Laughing Man - October 3, 2025, 6:57 am

I guess the real question is what would you do with the 10 million.

Yanix - October 3, 2025, 7:53 am

I'd definitely choose getting back my 10 years instead of taking \$1M. Time is priceless and can't really be bought. Those extra years would be worth so much more.

JoshAllen - October 3, 2025, 7:55 am

Makes a lot of sense, but I feel like starting over might be boring.

Somehow it's true, it might feel boring in the beginning. But starting over gives you a chance to explore things you never did before. It could turn out way more fun than you expect. ?

That is a great way to see it. And maybe avoid stuff knowing the outcome.

SIM-2362145 - October 3, 2025, 7:59 am

Restart my life from 10 year old so I can buy shitload of btc and get rich more than one million dollars.

Yanix - October 3, 2025, 8:01 am

(Oct 3, 2025 07:58 AM)Tyler™ Wrote: [\[CITE\]](#) That is a great way to see it. And maybe avoid stuff knowing the outcome.

Being aware of outcomes is helpful, but if it's getting boring, maybe it's worth exploring a different path. A little change can make a big difference. Keeps things fresh and interesting. Now I am thinking of the movie "Back To The Future" lol ?

Jamika - October 3, 2025, 8:18 am

Pay or give ? Cuz i can take a million in both cases , so if either pay or reset , i prefer to reset

sharn - October 3, 2025, 8:35 am

Restart at 10, but only if I keep my current knowledge.

Bitcoin makes the million look like pocket change.

Pimping - October 3, 2025, 9:30 pm

Easily restart my life at 10 that is worth more than \$1m

and i could make way more than that with the lessons i have learnt. I could also know what to do in certain life situations....

Mech - *October 3, 2025, 9:31 pm*

Do I keep like all my memories and knowledge I have gained since I was 10?

RangoWorld - *October 4, 2025, 12:03 am*

I'll take the mill.

Cloudy - *October 4, 2025, 12:13 am*

restart is the obvious answer if you keep current knowledge, if not take the mill.

2xTheTap115 - *October 4, 2025, 12:15 am*

I agree, living life anew does not guarantee success. But a million green can help a lot in this regard ??
