Thread: [Sell Logs \\$10 for 2000 Logs \[I got too many, need to make good use of it \]](#)

Money- - October 3, 2025, 1:53 am

I am looking to sell off Logs. I got too many myself. Looking to make use of them.

No cookies though sadly I know.

My logs works well on unsaturated sites / domains which I use for other projects myself but I got too much and too many.

I figure I will sell them off too.

\$10 for 2000 Logs.

Just give me a domain aka website you want logs on.

I'll collect for you, I am not responsible for checking the logs working or not though. I just collect..

You want reddit.com? You want google.com? then I'll collect all related to that domain.

But do note, it works well on less popular stuff. But you can try, is up to you.

Usually I will get up to date logs. But buy at your own risk. It works well on less saturated stuff. If you want the common stuff then can't guarantee much.

The popular stuff you will need more than 1000 obviously to get more hits.

Prefer Crypto Payment. LTC.. etc or any others.

\$10 for 2000 Logs.

Minimum Order would be \$10

Selling or buying this data violates U.S. and international cybercrime laws (e.g., the Computer Fraud and Abuse Act, Wire Fraud Act, and various identity theft statutes).

4 days later after someone had already reported it; it remains. Gotta love HF.

Looks like it is definitely against HF rules.

Staff said is 50 50 , if its anything involving identity documents or maybe bank fraud or public dumps being posted, it will be removed.

If you do a search, you can find several selling and buying threads even over a year or at least 8 months old.

If you check closely, they don't get anything. No threads removed no warnings and all. They only had specific post edited by staff because they post their discord or telegram or smtg cause they are not vendor they only edit his post that's it, staff actually read and saw the post though. No threads

closed no nothing, makes you wonder and question too.

I mean there are databreach lookup sites that almost offer same thing and are running with no issues legally

if its already public info from breaches there isnt much you can do about it after its released publically.... which i think is what OP is offering. if i had to guess its logs from stealers which have been made public overtime and hes just gathered and sort them and is selling them.. plenty of OSINT lookup sites offer same thing for a fee

GLWS [Money-](#)

I see. Good point. Many of these sites can be automated with programs on Kali for basic OSINT legally too so I don't think it's an issue.

Hey bro , its mixture of everything. No gurantee tho. Mine works well on some other unsaturated stuff for sure. But if what you want is popular and abused by most ppl then pretty meh.

You want what? All ? Like my collection lol? It would be too much tho , rather just sell what u want to look for specifically.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
