Thread: [How much have you paid for ingame currencies?](#)

HerrWinston - October 4, 2025, 4:44 am

Hello yall, Subject explains it quite well, I am speaking about Robux, Vbucks, Clash of Clans jewels, or whatever you paid for, tell us and dont be ashamed xD

I have prob spent 1000€ over my lifetime on different currencies, vbucks, rocket league credits or just game passes on clash royale ;(

Now I feel so dumb that i did it but I just wanted to look cool, considering i dont play 80% of these games anymore its even worse

For RSGP. In total maybe \$75 or less.

Basically nothing. I rather earn it than put money into games.

Runescape I would say about a few hundreds, I didn't know better to earn the RSGP myself.

Rocket League around the same thing, the market place for trading skins, car parts were cool.

And finally, Fortnite. All of these happened growing up. Let me just say, I learned mistakes... or did I ;)

Yeah, I do. I just recently quit playing it. Gambling addiction was bad.
