Thread: [if hf gave you mod powers for one day whats the first thing youd do](#)

Swiss - October 4, 2025, 11:26 am

i would prolly just give myself a custom award or something.

Deany - October 4, 2025, 11:27 am

Dunno, too much power to weld

Key - October 4, 2025, 11:36 am

Mod powers, nothing

Admin powers, making deleting thread as option available

Jamika - October 4, 2025, 11:44 am

I would ban anyone consider himself an officer and tell people to post or dont post

leste - October 4, 2025, 12:12 pm

I would give myself all the awards and promote my services everywhere.

itcorp - October 4, 2025, 2:47 pm

perhaps giving out quirky awards or badges to active contributors, just to bring some smiles

Moderator permissions cannot grant awards anyways. Nobody on HF can grant or create awards except [Omniscient](#) or another Admin, and he's the only one.

[Lowkey](#) better not answer this.

2xTheTap115 - October 5, 2025, 1:07 am

I don't think I'd want that kind of power, I'd probably go crazy ???

Still, creating a custom award is a pretty cool idea.

Fish - October 5, 2025, 1:39 am

Id do nothing and it would be a normal day

Lowkey - October 5, 2025, 9:01 am

I would fix the site the way members have been asking for it to be fixed since 2018

But if you were on that position just remember not to give me some warnings hahaha ?

Charlie Sheen - October 5, 2025, 9:55 pm

Really not much can be done with mod powers. Admin powers is where it's at.

If I had admin powers, eh. Not much. Maybe try to bring back Hackuman or some more award goals.

Pimping - October 5, 2025, 9:58 pm

Not sure much you can do with mod permissions
I would probably mod the site as a normal mod and stop some lq threads/posts in some sections

(This of course is a joke, surely no group of people have been asking for the same 10 things for over 7+ years now)

I will give all members good Popularity

RangoWorld - October 9, 2025, 1:13 am

I would remove all bot threads and probably close a few forums and bring more human element to it.
Focusing more on human touch and quality.
