What games are you into lately?

I've been playing Counter Strike 2 when I have the time.

Hey man :)

I also have a quick 5 minute rounds inside Rocket League whenever I get little time.

RangoWorld - October 11, 2025, 5:37 am

I played a bit of MTG Arena.

Never heard of it. What is MTG Arena?

Magic The Gathering. It's the world's most famous trading card game. It has a mobile and PC version called MTG Arena. To be honest it's pretty great and smooth. Can be addicting. Watch some videos.

Nice, was \$13 a good deal?

Absolutely, way back i got the game for free but then the remastered came around and i didnt want to pay for it, the game is like offline GTA you can do a bunch of dumb things and just chill.

13\$ was an insane price considering I come from the Total War franchise, where the average dlc costs 25\$ alone lol

Oh I also play MTG arena on my phone from time to time! Yeah it's nice!

It is fun, even though I play from PC. I always love it. 5 minutes of pure adrenaline rush :')

I used to enjoy CS:GO, but after selling my skins to pay off debt, I can't load up the game and feel happy about playing anymore. It's depressing to realize I only enjoyed playing because of the skins. It feels hopeless without them.

Currently playing BF6. Extremely fun yet chaotic.

Charlie Sheen - October 13, 2025, 11:23 am

UFC 5, Madden 25, might play some COD later today or this week.

I've always wanted to get into Counter Strike but it doesn't strike me as a game that a newbie should just jump into, the people that play it play the game religiously and are very good. This is just the feeling I get as it really has a cult following around it.

sikis313131 - October 18, 2025, 3:34 am

I play GTA 5 or Call of Duty.

sharn - October 19, 2025, 3:02 am

Trying out some stunts in GTA V.

Crashes happen, but it is fine.

I played GTA earlier in my life, but don't understand how people can still play it to this day. It seems

boring to me.

Usually a fair mix of LoL and PUBG.

I try other stuff but nothing triggers my dopamine fix like those two

Blood is a 1997 first-person shooter game developed by Monolith Productions using the Build engine and published by GT Interactive. The shareware version was released for MS-DOS on March 7, 1997,[1] while the full version was later released on May 21 in North America[2] and June 20 in Europe.

The balance between fun and skill in Halo 3 was unbeatable.

Yeah, its still great and fun to just enjoy in a non-competitive way as well. There are 3v3 or 4v4 which are quite fun and chaotic :D

You have a good point. I'll make sure to avoid using semi-colons from now on.

That is cool you are playing Counter Strike 2. I have been following a lot of the newer games that just came out. I'm really into the big story games right now like Kingdom Come Deliverance 2 and Clair Obscur Expedition 33.
