Are you also able to verify a stake account thats already been made but needs to complete the verification?

Wilmer - February 24, 2026, 3:10 pm

I don't understand why you wouldn't need to use a VPN? Contacted another seller on here as well about an account but don't want it to get banned a few weeks in because of a bad VPN.

His wording is just weird. He means with the use of a VPN you won't run into any troubles, not that you dont need to use a VPN. At least thats my understanding of his post.
