IDK Exactly, it could work outside USA with a VPN etc. I just got this code from something I bought and I do not need the code nor apple music, I could sell the code on eBay but thought to give it out here of HF instead!??

Taylor Swift <3

That's a classic song. I really do still enjoy her older music, more than many new songs, but I love many of those too.

I need to give her new album a 2nd listen, I haven't gone back yet to that.

Good luck to all competing.

~~

If my post # wins, re-roll :)

I want someone who can't afford it to have this.

Nice giveaway for sure
