Ghost of Yotei just released recently, what's your take on it? Are you playing or are you skipping it? Did you play the predecessor Ghost of Tsushima?

I think the scenery is just beautiful. I didn't get into the gaming details / mechanism etc, but as a first impression I really like it - I think I'll play it in a few months.

What do you think?

Oh, I am a PC degenerate ? I guess I will wait until they release it on PC which is maybe 2 years, if the earlier releases are to be followed.

As for the game, I didn't spoil myself much but the visuals were an artistic masterpiece with the first and I can easily see they didn't disappoint with the second. Its familiar but just as beautiful ?

Haha I see, yeah you'll probably have to wait a lot for a pc version xD

I know. The only conundrum I have is the coming year. That one single game coming in 2026, impossible to wait for just a PC release.

Yeah, seems like the general consensus at this moment is that it's even better than GOT. And I for one loved the first one, it was an artistic masterpiece.
