? VECTURA'S SECURE DEAL HUB — BTC & PayPal ?

!! WARNING: OFF-SITE CONTACT IS FAKE !!

If anyone tries to contact you outside Hackforums claiming to be me, DO NOT TRUST THEM. Verify here first!

Hey Hackforums members!

Scams happen too often, and trades can go wrong. I'm opening my own safe trade service to make sure both parties leave the transaction satisfied.

I handle BTC and PayPal transactions only. Other payment methods are declined.

? SERVICE FEES ?

- Transactions over \$100 -> 2% of the total
- Transactions under \$100 -> flat \$5

? Network fees (BTC transfer fees, PayPal fees, etc.) are always the responsibility of the sender or receiver, never me. These fees are separate from my service fee.

? HOW TRADES WORK ?

Example: Seller sells a digital item to Buyer.

- 1 Buyer sends the agreed BTC or PayPal funds to me.
- 2 Seller delivers the item or service.
- 3 After confirmation from Buyer, I release the funds to Seller.

? Transparent. Simple. Safe.

? WHAT I CAN MIDDLEMAN ?

- Digital currencies (BTC only)

- PayPal transfers
- Game items (CS:GO, Rust, etc.)
- Gift cards (Amazon, Steam, etc.)
- Account trades — I only hold funds, never accounts

? RULES & TERMS ?

- I may refuse any deal at my discretion.
- I am not responsible for transaction or network fees.
- Once funds are released, my role ends.
- No responsibility for items reclaimed or charged back after completion.
- Only BTC and PayPal accepted — nothing else.
- Professional behavior is required. Time-wasters will be ignored.
- Using my service means you agree to all the above.

Trade confidently, avoid scams, and keep your funds safe.

This is not a free service? This should be in the service offering section
