Thread: [Make your threads pop! - \[The Acedemy, H4CK3R\\$, Legends and Quantum\]](#)

CL1B - October 7, 2025, 11:52 am

Screenshot of the interface

Members of The Acedemy, H4CK3R\$, Legends and Quantum can now use this simple tool to convert text to .png image (with transparent background).

Whilst some groups already offer the css styling in bbcode; This can be a nice way to integrate group aesthetics into your thread content.

It's pretty easy to add in other groups.

How to use [\(Click to View\)](#)

Basic usage

Run the application

Open browser to: <http://localhost:5000>

Select a Font Group from dropdown

Enter text in text area

Choose font size and alignment

Click "Generate"

Voila

Group Tags

You can mix different font groups in the same text using tags:

`[q]text[/q]` - Quantum styling

`[h]text[/h]` - H4CK3R\$ styling

`[l]text[/l]` - Legends styling

`[a]text[/a]` - The Academy styling

Like at the top of this thread: `[a]Make[/a] [h]your[/h] [l]threads[/l] [q]pop![/q]`

Important notice:

Previously you could buy this tool for about 1000 bytes, but this raises a issue because certain group fonts are supposed to be exclusive and the group owners have paid HF for this exclusivity.

From now on, if you want this font tool you may contact me directly. The price is still 1000 bytes and you'll need to be in the group you want the font from.

If you are not in the group, you'll not be able to get that font.

Oh_Well - October 7, 2025, 12:26 pm

That's a fantastic resource for every active member in those groups! Great job [CL1B](#) !

Vectura - October 7, 2025, 12:36 pm

Bought it bud, thanks!
