Thread: [Thoughts on the newest Superman \(2025\)](#)

What are your thoughts on the new DC Superman (2025) ? Did you watch it, did you actually like it? What are your thoughts about it?

I actually found the new Superman (2025) pretty refreshing. Superman feels much more human and relatable than the usual ultra-muscular version, which I personally liked. The story has a lighter, heartwarming tone that really stands out among all the darker, serious superhero films. Krypto also adds a funny and cute touch, which I enjoyed.

The downside for me was that it sometimes felt a bit crowded with too many characters and ideas, especially towards the end with all the CGI. But overall, I didn't get bored, and it was just a fun, optimistic movie.

I agree, it felt like a breath of fresh air, compared to how dark and gritty Man of Steel was. But yeah, it just felt like too many characters were blasted into the scene and even though I loved it as a summer flick, it's something I'd only watch once and never return again ?

I haven't watched it. But I will be watching it for Milly Alcock. She's so hot. The next super star in Hollywood in my opinion

I have not watched it yet.

Hoping it is more than just special effects.

Haha, sadly, she doesn't appear for long. Only for a single brief scene or two scenes, I forgot. But next year, in Supergirl. You're in for a treat ?

Do you plan on watching it?

Uhm ? it's a... hard one to say. Story wise, it feels they stuffed in a lot of things together as a reboot to the whole DCU. And even though it is fun & enjoyable for a first time viewing. It's a movie, that you watch once and forget, I guess.
