Thread: [What are your thoughts on Cricket?](#)

It's a sports popular in India. A few numbers of teams play. England and Australia as well. I saw a game between India vs Pakistan in 2022.

The game is a bit similar to Baseball but not popular of course.

Your thoughts?

Honestly, I've tried watching cricket a few times, but I just can't get into it. It feels way too slow for me, and the rules are kind of confusing. I get why people love it, especially in India or Pakistan, but it's just not my thing at all.

The crowd was crazy over that game and I do agree there's a bit too much and the games are too long for casual audience.

Not really my forte. I respect it nonetheless though!

This game is popular in India, Pakistan, Bangladesh, Afghanistan... I think it is a fun game.

Cricket's great — love the strategy and the excitement of a close game!

Cricket is not really my thing.

I find it boring sometimes.
