\$2 - \$2.50/1k is the NORMAL Market price.

This is a 'SPECIAL SERVICE'...

??

yes ??

It gets HOT in here... lol

I got a rig setup, runs on 5v 2a phone chargers @ 2000H/s per miner running on battery. Going to integrate into solar power :)

How much XMR do you have available for exchange at the current time?

BTW - The setup looks sick. Good to see you stuck with it.. I remember when you first started off, I wasn't sure if you were going to stick with it, but it looks like you did, and it's paying off.

Definitely trying your service in future if the bytes allow it....

You can hold XMR if you want. Is actually worth holding now atm.. ur setup might give u more boost

of money in the future.
