Thread: [Throwback time how old were you when you joined?](#)

I'm quite curious — how old were you when you first made an account on this forum?

I'll start: I created my account back in 2012, when I was 15 years old. Now I'm 28 — time really flies!

Dam I couldn't even say but if I had to guess I'd say around 2012 as well when i was 16 or 17. My first account I lost access to so I made a new in 2016. (My 10 years coming up in January!!!)

I came late, I was around 25 years old, when I went back to school to study IT, I wish I started in this field earlier but better late than never

Yeah, I'm not admitting to this.

My first account was made in 2010. I moved in 2012 and when I moved I left everything behind. I didn't have a computer until 2013 and I lost access to my old email and account. So I made this one. To be honest the account had maybe 5 posts ever, I mainly lurked the marketplace and xbox section.

I first came across this forum when I was 15 or 16. It was mostly the curiosity of video game hacks that brought me here.
