Thread: [Learn to Trade with Algorithmic Logic \(Mentorship\) \\$500 TO \\$1k+ A DAY](#)

KyO - October 13, 2025, 8:22 am

I don't do flashy threads and none of that bs, but most traders think they need a better strategy, 90% of the time they don't, they need a system that re-wires how they think.

I've been on both sides, chasing entries, drowning in indicators that promised consistency and all that flashy bs none of that works.

What changed everything wasn't luck, it was structure. A system that flows like water, adaptable, something that makes emotion irrelevant, that's what I have built over the years, this is mentorship for traders who want to understand why algorithmic trading works and how to follow it until instinct and structure become one, the market has always punished emotion, and having a trend-following system that you are able to be patient with your winners and impatient with your losses will give you an edge. I simply want to give back this community, I'm only taking 5 students as of now, price is \$1,500 flat. Also I need to interview you before getting into the mentorship to see if you're going to be a good fit or not since I'm looking for something in particular in my students. Refunds only within 10 days of purchase.

Firstly, Congratulations with your new service ?

I notice you are not providing any vouch copies for this, would have been interested to check out what you were providing.

But regardless, based on our trading correspondences over the years, I can expect nothing short of HQ from you as being a reputed member of HF here. If there is one thing we both share, it's providing only the best of services or provide nothing at all. So, anyone who becomes your student will be truly lucky.

Good Luck ?

Much appreciated brother ! Yeah the way I see things is that there is a lot of kids here that like to keep going through methods but never acquire a good skill, so I'm trying to get them out of that loop and work with them so they carry this skill for the rest of their life.

Zero - October 22, 2025, 9:09 am

I'm so glad to finally see some professionals doing mentorships.

I've know you for so many years and at this point I can't see my life without you by my side. I've learned so much from you and even earned too. To the point I could come up with ideas myself.

I truly believe you are an expert and hopefully some users here can benefit as well.

Thank you for being you ?

KyO - November 16, 2025, 11:07 am

Thank you all for the support ! Seems like kids on HF are still looking only for quick bucks rather than develop a skill to carry for the rest of their life.

KyO - February 7, 2026, 5:14 pm

This is the current trade i am in 1000BONK/USDT.P

The 2 blue lines are my SL & TP

I have been shorting the market since BTC hit 124k

Scortex - February 15, 2026, 9:53 am

Currently don't have the liquid funds at the moment but posting to keep with updates.

Would love to exploring the opportunity if it is still around in near future.

Just shoot me a pm, whenever you're ready no pressure

KyO - March 6, 2026, 5:02 am

Took in the first student. Only going to take 2 more for now.

aktivacz - March 12, 2026, 12:46 pm

What will be taught? MetaTrader coding or would I be using strategyquant to create algo?

KyO - March 13, 2026, 5:31 am

Tradingview algo + my 9 years of experience

Stanley - April 1, 2026, 4:56 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
