You will always be cooler when wearing sunglasses change my mind (you can't)

Deany - October 13, 2025, 4:20 pm

No I don't like glasses

plops - October 13, 2025, 4:24 pm

Once I thought the sunglasses I had weren't see through. So when I went outside I wore them to stare at tits. But the sun was directly above me and exposed my eyes. Sunglasses didn't do shit and i became an obvious creep instead of covert.

PhillyStyle - October 13, 2025, 5:34 pm

What about those little sunglasses things that you put on over your glasses? Are those cool? Because I don't want to pay for prescription sunglasses.

onlineuser | D3RFER - October 13, 2025, 5:48 pm

Definitely not.

Wrong fit = not cool

Also some people just can't wear sunglasses, that's a fact

jcole - October 13, 2025, 6:30 pm

I have sunglasses for work (cheap), and Oakley's for going out.

I genuinely started enjoying wearing them especially when driving in the summertime with the sun blasting, helps me see much better

CryptoMancer - October 14, 2025, 2:17 am

Not unless you're wearing sunglasses in the sun, then you'll be warmer

Jinu - October 14, 2025, 5:28 pm

I'm not sure anyone can actually argue with that Sunglasses just add an instant vibe, whether you're out in the sun or just trying to look mysterious.

I almost never wore sunglasses when I had to wear prescription glasses to be able to see better except when i started wearing contacts almost 24 7 but when I got LASIK around 2017 I started to wear sunglasses alot more and not to mention how great it was being able to have 20 20 vision without having to wear contacts or glasses anymore it feels great

B3A - October 17, 2025, 6:48 am

ive seen people wearing NOT their face type glasses and id swear they'd look cooler without them

Lowkey - October 17, 2025, 5:39 pm

Some people do not have a good facecard.

NikkiBee - October 18, 2025, 12:22 am

One thing I cannot stand seeing is people who wear sunglasses in doors. It comes across as extremely tacky, and a need for attention. Sunglasses are meant for outdoors, unless you have a prescription and need them to protect your eyes from the light.

sharn - October 18, 2025, 4:07 pm

No one questions your mood when they cannot read your eyes.
That is sunglasses power.

Lowkey - October 19, 2025, 7:46 am

Sunglasses do have that power.

RangoWorld - October 19, 2025, 8:14 am

Yes I agree.

Though I don't like when people don't take off their sunglasses while having long conversations with you.
