Thread: [today I have decided to enter politics? OPINIONS.](#)

Rsynced - October 13, 2025, 4:42 pm

Ok so today I have decided to enter politics, I am opening a non-profit org and going to do something big!

The charity does not have a name yet, it has 3 GOALS. #1 SUPPORT LOCAL LAW ENFORCEMENT #2 CREATE A POSITIVE IMAGE AND SAFETY FOR LAW ENFORCEMENT OFFICERS #3 GET LOCAL COMMUNITY INVOLVED WITH LOCAL LAW ENFORCEMENT

MY ENEMY = BLM, George Soros and the rest of the goons, they will oppose my policies, it goes against their agenda of self driven motives for profit, power and control over mankind.

I will draw myself a salary, I know I can get my first donation in 24 hours or less. I will present my charity directly to the local police department and city government.

AI told me how to do EVERYTHING!

My motives? TO SAVE THE WORLD!

<https://www.heppy-bot.com>

Please advice, do you think I will get shot? Seriously. yes I know I am crazy, but the doctor says I am not and I am highly intelligent and it's just stress. He will not diagnose me with any type of mental ailment, he says I am extremely GIFTED and need to take time with things, he only prescribed me anti-anxiety and BP meds for my STRESS condition. Other than that, HE SAID NEVER DRINK AGAIN IN YOUR LIFE OR YOU WILL DIE!

I played Russian Roulette with the 18 packs of light beer for 25 years. I do not FEAR DEATH, LIFE IS WORSE!

Gordon, I know you are watching me :) I am watching you too ;) Boo! ?

Oh the website? lol

That belongs to my new BFF [daft_dutch](#)

He is 'Daft' google it. I excel with 'Daft' friends, I got A's in every class I had a friend like this... It kinda hit me the other day, I do not drink anymore, my brain is working again, the most strange feeling of being reborn, it's like you know no other way when you are a drunk. 2 years 7 months... Brain is like 50%? idk, I guess I will get rich and wise by the time I am an old man at this rate. I will die if I drink. Life got really simple for me...?
