Thread: [Feeling Generous](#)

Well folks, instead of posting slop in lounge like I have been I will contribute. I am going to give a service temporarily to one lucky person.

What's the service?

I have built a way to funnel referrals to a specific survey site. It has been successful for me for the 3 months it has been alive. Here is some proof from both accounts I run:

It may not be life changing money but it provides a somewhat steady trickle.

How to enter:

- You must be an established member, any entries from one off, low quality, just made accounts are thrown out.

- QL this post and reply to it, thats your entry. Winner will be chosen Friday, October 17th (sometime late afternoon mountain time).

Prize:

- I receive the info needed from you and your referral will stay in my rotation for 2 weeks. Allowing you to earn money passively. Currently the referrals work for a lifetime. So it's an indefinite trickle as long as referrals stay active and the company does not change policy.

Things to know:

- You are a test dummy to see how I can get this to work for others.

- This platform has users from the US, Europe and India (possibly more, but this I know).

- Yes, these are legit sign ups from real people. I am not hosting a bot sign up service or some Chinese multi-phone service.

- There is a chance of getting your referrals account locked, you will have to reach out to their support to unlock it and get your first cash out. 99% of the time it is painless and just an inconvenience. I can not help with this but I can guide you.

- In the 2 week time frame you can give me any amount of referral links but only one is active at a time.

- Cash outs start at about \$3 depending on country and reward type. So accumulation will not be immediate (e.g. I sign up with your link, It might take me 3-5 days to complete tasks, save \$5 and get paid out for your commission.). This takes time and effort by the referral.

- I can not guarantee amounts in dollars, referral counts or longevity of the referral users.

- VPNs do not work here. Unless you have a repeatable method worth monetizing. Meaning, I might buy it.

Any questions? Ask in the post.

Good luck.
