Thread: [How can I join a crew/clan?](#)

daemoncibsec - October 14, 2025, 11:59 pm

Hello again guys, hope you're all having a good day.

I want to ask how can I join any crew/clan. I know there is a part of the forum that, for any reason, for me it's not accessible through the home webpage. There, people post their crew applications and all of that, and I thought it could be a good idea to join some crew to learn things faster and be able to experience how real teamwork looks like. However, I can't reply to any post neither create my own. I'm sure this is intentional, but I don't know why. Could someone explain me the requisites to join any of these crews?

PD: Sorry for posting this in this part of the forum. I know this post is not intended for this topic, but I couldn't find any other topic on the forum that adjusted to my question better than this one.

As always, a pleasure to talk with you guys, see you!

Depends how much you're willing to sell that soul of yours for.

Haha. I believe you may need to be upgraded for this feature? Someone correct me if I am wrong. Either way: We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

Look forward to seeing you around!

I just checked out why and you're right, I need to be upgraded to be able to post and reply on that topic. However, I have no money and would like to join a clan. Is it possible without sending a message in that topic? I couldn't find any information on the Docs regarding that question. Thanks a lot and, again, hope you have a good day!

I'm also interested in how to join a group.

Where can I see a list of groups that exist on the forum?

I saw it somewhere recently, but now I can't find where on the forum I saw the list of existing groups and their requirements.

You can see the current groups here: <https://hackforums.net/showthread.php?tid=6272505>

I'm not sure if that thread is currently being maintained however.

The official HF group page can be found here:

I already looked here <https://hackforums.net/showgroups.php> . Your information says that I don't meet the requirements)

And if the Academy didn't accept me into the group, it looks like I still have a lot of growing to do on the forum)?

Hi,

Our recruitment thread is the appropriate place to apply.

That "Apply to Group" function isn't used very much, instead you can apply on our thread:

[? Warriors Recruitment | Join the Best of HackForums | Become a Warrior Today! ?](#)

Simply copy and paste the questions at the bottom of the thread, answer them to the best of your ability, then wait up to 12-24 hours maximum.

I hope to see you apply - everyone is welcome.
