Not really, just meeting new people casually.

I have a girlfriend and she motivates me.

Astaroth - October 18, 2025, 6:32 pm

I date not, due to not being good dating material.

When I approach girls, trying to lure them into dating me, they usually makes kind of a "swiping" hand gesture but I have yet to crack that social code. ?

Seriously, I prefer to let it happen naturally. Dating is too staged in my opinion.
