Welcome back man !! I'm glad you are back and recovered your account !!

OpSecSurvival - November 6, 2025, 10:49 am

To any staff that see this, this was my ALT that I used to recover my main account. It is no longer needed and needs to be deleted, please and thank you.

Closing thread

Well, I guess I can't close it because it's on the ALT and I don't want to log back into it but nonetheless LMrecovered is no longer needed.

Thanks for all the help, brother. I've got everything safe and secure on my main account thank God.
