Thread: [How many times have you successfully completed the 2% job on Hack Game?](#)

jcole - October 19, 2025, 8:36 am

I've only successfully done this job a handful of times. It gives so much experience, and money in the game. I wish I could hit it more often though!

3 times I think? I def know 2 times. I hit it randomly sometimes.

plops - October 19, 2025, 8:44 am

I think the last time I did it, the job was a moon landing.

The hacking NASA one? The bottom job is always the most worthwhile one over time. I might get it once a week or something.

A handful of times. Still so confused how to rank up fast in the game at all. I feel like such a noob.

I've often thought about that too. No way these players are doing it legit.

I think the game is just broken, I try to play it often and just lose interest when I realize it is still broken and pointless. It has no end and plot, just seems to need some sort of direction, like a linear design to make it complete. Start with a story beginning and end.

I know I completed it probably a dozen times atleast, isn't there a way to check to see how many times exactly?

sharn - October 19, 2025, 9:36 am

Two successful runs, after countless screw-ups.
That mission is insane.
