Sounds cool! Haven't tried that one yet — what's it like?

We're currently in the beta phase, there isn't a server like ours currently. I suppose the closest would be other semi-customs; Aethel is a world of its own however. I encourage you and others to give us a shot, come leave an honest review in our discord and we would be more than willing to better our server based on your criticism. ?

That actually sounds really cool! I like that you're open to feedback — I'll definitely check it out and see what it's like. ?
