Thread: [Pulling Pre-Release metadata from DSPs \(paid\)](#)

treeqr - October 21, 2025, 12:49 am

Does anyone know how this guy pulls stuff from dsps? [purple4matter on Twitter/X - cant send links lol]

He can check if stuff are uploaded to DSPs and I've seen people in the past do it as well but never stated how they were/are doing it.

If you find a valid way to do this, I will pay you 100+ USD (DM Me on here)

DSP - Digital Service Providers (Spotify, Apple Music, Soundcloud, Deezer, etc)
