Previous 2d ban as well as quashed/removed offences. It's a jagex account. Sending you screenshot of updated total now (it's 1850+ now)

Last 60 attacker is complete as well. Pretty much identical to the other 2.

So, if you're in search of a pure, have 5 maxed, 3 60 attackers, 1 75, 1 50, 4/5 have 93+ slayer as well, if you'd like to get a slayer cape on a pure. All have similar/same untrades.

\$150 on each maxed pure. 3x 60 1x 50 attackers. Hit me up if interested I just lowered prices on eldorado, would like to move these quickly as they have been sitting.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
