Thread: [What's your biggest fear?](#)

Palestine - October 25, 2025, 9:48 am

One of my biggest fears has got to be not being able to protect or defend my loved ones if they were ever in trouble or being attacked and I wasn't there to protect them. Aside from that I've gotta say fucking snakes and spiders. I fucking hate them.

not a fan of heights, drowning, being eaten slowly by an animal or meticulously tortured and kept alive, or being sentenced to immortality in complete isolation.

I sometimes fear that when I die, there will be some kind of glitch that traps my spirit somewhere I wasn't meant to end up. Now when I think about it, it's absolutely frightening. ?

Jinu - October 26, 2025, 12:29 am

Totally get that bro. Not being able to protect loved ones is a scary thought. And yeah, snakes and spiders are the worst.

sharn - October 26, 2025, 1:12 am

I am scared of losing the people I love without getting to say goodbye.

Death feels too abrupt.
