Thread: [Missing team in sportsbook](#)

I'm not sure if I'm just an idiot and keep missing it but I can't seem to find my team the Philadelphia Eagles in the sportsbook? Is there a reason why it's not there

Their game is over for today already and they don't have another game for two weeks. The game probably just doesn't have odds made for it yet. It'll probably show up in a week or so.

Yeah i know it's already finished today as of me posting this but I mean when I tried to add a bet/wager on them they weren't showing up and it was a whole hour+ before the game started and I kept checking up until it started incase I missed it but nothing.

I think I even tried doing it few times some time ago and I'm pretty sure I also didn't see it on the list then either but I seen the other teams/games on there.

But I guess we'll have to just wait and see what happens the next time they're playing if it'll show up or not. I hope it does! That's my team! I could've won me some bytes today had I been able to bet on them ??

But thank you anyways for the help! ????

Yeah I'm pretty sure I had checked few times before over time and never seen them. I hope they can be added though, I gotta make some bytes off my team ?
