Thread: [Cybersecurity book](#)

Rakishi6567 - October 27, 2025, 6:40 am

Hello, i'm selling my own book about Cybersecurity, Ethical hacking, OPSEC, Network Protocols and Technologies.

Some of the content includes:

- DDoS's history, types and prevention
- OPSEC
- Cryptography(encryption, examples of bruteforcing)
- Crypto section
- Network protocols
- Technology section

[contract=tid]Start Contract[/contract]

Price is 40\$

also the book is in active development and almost every day is added new information and courses BUT it is one time buy and you will get all future updates for free

I will post link for the first 8 pages as preview (i don't know if i'm allowed to post links so please notify if i'm in wrong)

Hello,

book is only informational with some examples of bruteforcing encrypted files, but everything is for education purposes only and does not contain any illegal information/methods.

You can DM me here and ask me for specific questions if you like
