Thread: [\[HIRING\] Marketing Specialist for Nexus — EdTech Automation Bot | \\$500–\\$3K + %](#)

Mxstermind - October 28, 2025, 6:04 am

About the Project:

We're BrandForge — a digital agency currently managing marketing and growth for Nexus, an automation bot for the online school platform cunts. Nexus helps students complete quizzes and assignments automatically through a licensed tool system.

We're looking for a Marketing/SEO Specialist to lead paid and organic campaigns, drive traffic, and convert users at scale.

Your Mission:

- Develop and execute marketing campaigns (Reddit, TikTok, Instagram, Meta Ads)
- Improve conversion rates and ROI for paid ads (especially Meta) Create, schedule, and manage daily social media posts + short-form videos
- Experiment with creative angles, audience targeting, and platform positioning Report weekly on results, ad spend, and growth
- (Optional) Manage "silent" marketing on Reddit and forums — organic mentions and soft promotion.

Requirements:

- Proven experience in social media marketing, ad management, and content growth
- Strong understanding of Reddit, TikTok, and Meta ad ecosystems Portfolio or past campaigns showing conversions / ROI
- English fluency and ability to create engaging ad copy Availability to communicate daily and provide progress updates

Payment & Incentives:

- ? \$500–\$3,000 upfront (depending on experience and commitment)
- ? 5–15% commission on sales, scaling as conversions grow
- ? You'll have ad dashboard access and creative freedom
- ? Goal: Generate a few thousand USD/month in new ad-driven sales

Extras:

- Client provides budget for ads Access to previous successful creatives & social pages
- Flexible hours, results-oriented work style Potential for long-term collaboration with BrandForge

How to Apply:

? DM me or contact an admin on [BrandForge.gg](<https://brandforge.gg>)

Include:

- Portfolio or examples of past work Your proposed strategy (platforms + ad angles)
- Expected upfront fee & performance targets

Let's make Nexus the top EdTech automation tool together.
