Thread: [PRIVATE MONEY MAKING METHOD: \\$200K+/YEAR | UNSATURATED | 100% LEGAL | US ONLY](#)

Flariuu - October 28, 2025, 4:45 pm

??

? THE NEXUS METHOD ?

\$150K/Year Potential - Proven Strategy

? NEVER SEEN ON THIS FORUM BEFORE ?

??

? MAKE \$1,000+ IN YOUR FIRST WEEK ?

I've personally banked \$150K doing this in 12 months

? WHY THIS ISN'T ANOTHER BS METHOD ?

Look, I get it. You've seen a thousand "money-making methods" that are either:

- Saturated dropshipping BS
- Illegal black-hat schemes (loan fraud, refunding services, carding)
- Time-wasting surveys that pay pennies
- Social media growth schemes
- Ewhoring
- OSRS gold farming

This is different. Here's why:

? COMPLETELY UNIQUE - you won't find this method anywhere else on this forum

? I've been doing this for a YEAR - not some theory I cooked up last week

? IMPOSSIBLE to saturate - more people doing it doesn't hurt your earnings at all

? INFINITELY SCALABLE - reinvest your profits to multiply your returns exponentially

? 100% legal - zero risk of money being taken away

? Fast returns - cash in hand within 1-2 weeks, not months

? Simple execution - if you can drive between states, you can do this

The catch? You must be in the US OR have someone you trust in the US who can travel between states. That's it.

? THE NUMBERS DON'T LIE ?

Minimum Effort: \$2,000-\$5,000/month

Part-Time Grind: \$8,000-\$12,000/month

Full-Time Hustle: \$150,000+/year

Your results depend on your effort and how often you travel

Starting costs? Just ~\$50 + gas money. No inventory. No website. No employees.

Here's the beauty: The more you profit, the more you can reinvest. Start with \$50, make \$1,000, then reinvest that \$1,000 to make \$5,000+. This scales as big as you want it to. Your only limits are how much capital you're willing to put back in and how often you can travel.

? WHY AM I SELLING THIS? ?

Fair question. If it's so good, why not keep it secret?

Simple: This method doesn't saturate. Other people doing it doesn't affect your opportunities whatsoever. I'm not competing with you - there's plenty of room for everyone.

Plus, at \$500 per copy, if I sell 20 copies this month, that's \$10K in passive income while I keep running my own operations. Win-win.

This is a genuinely unique opportunity - I'm bringing something fresh to this forum that nobody else has posted before.

? \$600 ?

? PRICE INCREASES TO \$800 AFTER 2 MORE SALES ?

You'll make this back in your first 1-2 trips

Crypto | CashApp | Venmo accepted

It requires very little starting cash and has the potential to produce hundreds or even thousands of dollars, depending on your plays. The guide explains everything clearly and even includes extra tips to help maximize your profits. If you purchase and use this method consistently, you'll make your money back as long as you put in the effort.

You must be in the US or have someone there to help, and reliable travel/transport is a must. If you clear those requirements, the income potential is very nice. We're talking way more than the advertised guide money making.

This method is legal and won't get saturated anytime soon. The effort is totally manageable, actually kind of fun if you stay flexible. If you're US-based, this is a good way to make a living with this money. recommend it

Ability to travel to specific states

Right off the bat, this is unlike anything I've seen on the forum before. I've tested my fair share of MMMs here, and most end up being either just recycled nonsense or require insane startup costs. This one is different. The logic is solid, and the earning potential checks out.

I'm currently out of the country, but I plan on running this the moment I am back stateside. OP mentioned over TG that you can stay in a target state for 4 to 5 days and pull in around \$3k per day. That's consistent based on the proofs he showed me.

The method exploits a loophole in the system of an app. I did some digging and confirmed it's completely legal, though I'd classify it as grayhat rather than pure whitehat. OP has run this without issues and clearly knows the space well. The guide itself is clear, concise, and easy to follow. You can read through it once and understand exactly what you need to do, and it includes detailed tips at the end on maximizing longevity and profitability. OP was responsive to questions and showed me app screenshots from multiple trips that lined up with what the method claims.

The only major downside is travel: depending on your area in the country, driving to a state that has availability might take 6+ hours. Currently, the best opportunities are near Florida and Texas; however, there are about 12 viable states at any given time that rotate randomly. That being said, it is well worth your while when you consider ROI. Transportation costs will be covered multiple times over, and you can easily scale this by reinvesting your profit back into the method.

I know some will be cautious, as I have not been able to test it personally yet. The method is simple enough, though, that I am sure about how this works, based on the screenshots and how the exploit functions.

At 250k-400k/year potential, the 500\$ price tag is nothing. I've seen half as profitable methods selling for 800+. I'll update this once I get to run it myself but from what I've seen so far, it looks legit.

Why do we need to have transportation and go state to state
any way to make the money all online? if so i can take a vouch copy (if you are offering) and test
and review the method

I would rather not say exactly what the method entails on a public forum, if you have questions you can message me on discord or telegram.

There is a way to make it all online, personally I don't do it that way, but it exists. I can give you a vouch copy.

It doesn't have to do with casinos or bonus bets, message me on telegram or discord for more info, I don't want to talk about the method on here.

I received a vouch copy for this money making method and at first glance.... it is not a bad method and based in what the method entails you can make money with it.. I would not even classify it as a "method" since its really a short few paragraph on what it is.. like the idea of method is simple to figure out but it is not a step-by-step 1-2-3 you have to ask him any questions you may have... based on that and that it is so simple that if you know what to look for you can literally find most of how to do it in 10 mins. I dont think it is worth the \$500 price... this should priced at the most \$150-\$200 unless there is more value provided.

The main thing you need for this method is not even provided it is pretty much like go find it yourself. There is no site provided to find the places you need to go. I had to ask to see if there is some in my area and for some you might have to drive hours and hours to even get to the places for this method to work.... then invest money on paying to get in AND investing more money on top of it before you can even turn on a profit. So it is not like you are paying \$500 and then you can start earning right away with no investment.... i would say another \$1k+ invested after that to even make

it worth your time. He does say it requires legwork and travelling in the thread but there is no mention of the fees to get in and then how much to invest with each thing.

The seller seems like a nice guy and i have voiced my concerns to him and told him ways he could add value to make it worth the \$500 pricetag and he said it is something he will look into. If he implements what i suggested i can easily see this being worth the \$500 maybe even more if he provides all the resources you need (which he seems to have since he has showed photo proof of his returns on investment).

I want to be completely honest about this because i do feel like with what he has showed me.... I cant say it is worth the initial cost of method in my eyes... but the method works since there is other people online who do this thing. It is the fact you need to pay for your gas/transportation, fees, investing money ontop of it, then the method which is \$500....

Overall it can make you money, just a lot of work that is needed to make it happen. I think there has to be more resources provided for it to be worth this. If it was \$100-\$200 i might say take a chance and buy it and you have him there to answer some questions.... but at \$500 i would be disappointed if i bought this without knowing all the legwork/investments that are needed. Just my opinion and review of this method

Thank you for letting me review and i wish you the best of luck with this method [Flariuu](#) and i hope you take into consideration what i suggested.... as those suggestions would very much help your method. If any new stuff like that is added in the future i would be happy to rewrite my review and say my thoughts again

If any new stuff like that is added in the future i would be happy to rewrite my review and say my thoughts again

Thank you, I appreciate you taking the time to provide such an in-depth and honest review. I do want to clarify a couple of things:

Regarding investment costs, aside from the transportation cost and the approximately \$50 entry fee, nothing else is required to get started. If you have some money handy, even if it's just \$100, \$500, or more, you can start with what you're comfortable with and scale up from there. I've added this to the original post.

Regarding simplicity, I actually view this positively. There's nothing complicated in there. It's simple and easy to implement, which equals faster results. Ultimately, what matters is if it truly works. I've shown proof of doing thousands per trip.

Concerning the effort - it mainly comes down simply to the driving, which really beats sitting at a desk somewhere 9-5. The effort required is minimal compared to the returns.

Regarding resources, I have already incorporated your feedback into the method, including what specific sites need to be searched in order to find places, less "figure it out yourself" now.

Again, thank you for the feedback. This directly led to improvements in the product for future buyers.

If you're serious about wanting to try it out, we can use a middleman until first profit. That way, if you don't make money, the funds will be returned back to you.
