Hi,

How much is it for a 7-10 day Egypt eSIM?

Wouldn't mind getting one for holiday.

Nice service. Maybe i try it out soon.

Thailand and Netherlands you have something with unlimited data? No call/sms needed.

Also tip:

For all who dont have a Phone which has eSIM compatibility, check out <https://esim.me>
Its a physical sim card you can order and you download a app and then you can manage up to 15 eSIM profiles on your phone
and use esim's on phone/devices which dont support esim.
I recently did same :) my xiaomi 11t doesnt natively support it and works great.

Hey,

Is this still available for USA eSim carriers like T-Mobile and Verizon?

Highly interested in purchasing.

Thanks.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
