Thread: [How to find DOD contract stock tickers // My Department of Defense Investing Strategy](#)

Hackers - October 29, 2025, 5:26 pm

Step 1 - DOD website

<https://www.war.gov/News/Contracts/>

i use this all the time to identify smaller companies who are awarded bigger than usual contracts. It's good also for big companies, but you can find some really good profits by perusing this contracts website every week.

Recent examples include further investments in Project Overmatch and the Aegis Combat System and Sikorsky investments, and more.

Pick a date (or crawl/scrape all):

<https://www.war.gov/News/Contracts/Contract/Article/4319114/>

(Oct 30 example)

Step 2 - Ask GPT to extract company names, project purpose, and amounts

Quote:[

```
{
  "company": "701C LLC; Anovaeon LLC; Guardian 6 Solutions LLC; KDP Global Enterprises LLC; ResponseForce1 LLC; SGK Global Services LLC; Worldwide Employee Housing Solutions",
  "purpose": "Worldwide Expeditionary Multiple Award Contract (WEXMAC) TITUS for expeditionary logistics, lodging, humanitarian and contingency support",
  "amount": "$10,000,000,000 (shared ceiling)"
},
{
  "company": "G.S.E Dynamics Inc.",
  "purpose": "Production and repair support for nuclear-powered submarine maintenance and modernization",
  "amount": "$1,123,590,000 (up to $1,906,010,000 with options)"
},
{
  "company": "Lockheed Martin Space",
  "purpose": "Trident II (D5) missile production and deployed systems support",
  "amount": "$647,069,302 (up to $745,678,290 with options)"
},
{
  "company": "Systems Planning and Analysis Inc.",
  "purpose": "Engineering and support for Trident II and Strategic Weapons Systems including UK programs",
  "amount": "$500,000,000"
},
{
  "company": "Lockheed Martin Corp., Liverpool, NY",
  "purpose": "MK 48 Heavyweight Torpedo production and spares",
  "amount": "$245,413,931"
```

```

},
{
  "company": "Lockheed Martin Missiles and Fire Control",
  "purpose": "Infrared Search and Track Block II systems and spares for Navy and Air National Guard",
  "amount": "$233,000,000"
},
{
  "company": "Global Air Logistics and Training Aerospace Inc.",
  "purpose": "Production of Airborne Network Extension SkyTower II Pod systems",
  "amount": "$145,524,883"
},
{
  "company": "Lockheed Martin Rotary and Mission Systems, Moorestown, NJ",
  "purpose": "Systems engineering and software integration for Integrated Combat System",
  "amount": "$131,380,789"
},
{
  "company": "Lockheed Martin Rotary and Mission Systems, Owego, NY",
  "purpose": "Technical support and sustainment for H-60 Multi-Mission Helicopters",
  "amount": "$96,000,000"
},
...
]

```

Step 3: Ask LLM to filter down to only public companies.

If you need exchange info, make sure you ask. For example some may be NASDAQ, some may be NYSE, etc, etc.

In this case, I already own these types of companies - Oct 30 is not a good date for me.

Now, if you want an easier way without using a custom scraper/crawler (faster, so it's a good idea), then you can use a slower but automatic agent mode. For example, I used GPT5 agent so it could navigate to the contracts page and go into each date for me, and process the data without me needing to re-prompt:

I can tell you 100% that method 1 above with the 3 steps is faster than agent mode, per date. However, agent mode will get you more research info. If you are familiar with companies, you can do that on your own, but if you need help researching then agent mode might be better for you.

Stanley - February 6, 2026, 7:20 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
