RiveR29 - October 30, 2025, 3:12 am

Aight so the things is I need 7 numbers. From all of you writing to this thread, and yall might already know where I am getting here.

But I need 5x numbers between 1 - 50, and 2x numbers between 1 - 12.

But I will take the first 5 peoples numbers today, the next 5 on Tuesday 4th of November.

But basically I will take 5 peoples numbers every Tuesday, Wednesday and Friday.

Maybe I worded it wrongly. But the catch is that I need numbers for my nations lotto and I myself am extremely bad at coming up with numbers.

So I created this thread for people to pitch in with numbers of their own choosing. I will use the numbers given to me.

I also created this thread to get people to engage in a way. So in a way this is not a contest. And the 100k is just me donating to the one who gave me the winning lucky numbers. Just to show gratitude. I also want to help the community if I ever win the lotto.

I think it's something interesting to see how it ends.

It's easy, just choose numbers like

0-0-00-00-00-0-00

and substitute out each 0 with the number you want.

Did I get the idea across right? [RiveR29](#)

Yeah hope so. The chance of winning is quite small like always but never zero. Unless you do not play.

Okay so the first 5 rows of 7 numbers has been played. I will post a reply with a link to a photo of the sheet I played them on later after I get home.

But it is not. Like stated few times before, I myself am extremely bad at coming up with lotto numbers. So I figured why not ask here?

Activate the community a little.
