Thread: [Have you ever thought about becoming a millionaire by being a hacker?](#)

whoaim - November 1, 2025, 3:40 pm

Have you ever thought about this, and if it's as easy as just thinking about it? With your hacking skills, could you really become millionaires, or is it something very difficult?

Dodie - November 1, 2025, 6:44 pm

Type of shit in movies not real life lol

I figure that blackhat hacking is like most things people do. There are a few who become super successful, and the large majority get meager 'earnings'. Then there's hackers like Wazawaka who were successful and lost everything.

I'm not talking about things like in the movies. I meant, for example, if you don't do anything else in your life but hack, and you have enough time and know about hacking, you could make a lot of money from hacks, bots, selling bots or programs, etc. That's what I meant.
