[b][align=center]Twitter Mass DM Service – X Mass DM Service – 1K – 45 USD

Reach thousands of real Twitter users directly through personalized messages.

This Twitter Mass DM solution is built for brands, creators, and marketers who want instant engagement without ad spend.

We combine bulk Twitter DM service precision with behavioral filters to reach active users only. Our team uses a professional Twitter marketing bot setup for safe, consistent delivery — perfect for promoting your account, NFT, SaaS, or event. Each automated Twitter DM outreach campaign is customized for your goal and audience.

How it works

Tell us your project and expected outcome — traffic, followers, sign-ups, or conversions.

Provide targetable accounts or communities for scraping.

Share your DM message (or co-create it with us).

Data scraping takes about 0–60 minutes.

Approve the dataset before sending.

We launch the campaign; 50 K DMs can complete within about an hour depending on filters.

You receive a clean HTML report with sender, receiver, and message details.

This affordable Twitter mass messaging option is both reliable and result-driven — ideal if you're testing growth at scale or want a repeatable outreach process. Every X Mass DM campaign includes proof of delivery and audience transparency so you can measure ROI easily.
