Thread: [Emulator/uber eats discount help](#)

qmizy - November 5, 2025, 2:24 am

hi everyone, im currently trying to use daisysms for an uber eats discount but i need to figure out how to setup an emulator in order to properly recieve the discount. i have been trying for awhile to figure out how people do the uber eats discount method as i see it all over discord and tik tok. i was able to discover these instructions showing how to use "a" bot

register

Register user in the system. Must register before using other features.Only done once

!start

Open the main menu interface to access all features such as starting orders, viewing user information, purchasing memberships, etc.

!help

Display help information for available commands.

? Utility Commands

!checker <group_cart_link>

Check if an Uber Eats cart link is valid and whether it supports promo codes.

Example: !checker

Query the order status of a specified Uber account, including delivery information and photos (if available).

Example: !status example@gmail.com

? Main Menu Features (!start)

1. Order Services

IMAP Mode – Place orders by logging into Uber accounts via IMAP

OTP Mode – Place orders by logging into Uber accounts via one-time passwords

2. User Configuration

Set default IMAP, password, DaisySMS API key, etc.

Set default order name and tip amount

3. Balance and Account Purchase

Purchase balance using SOL cryptocurrency

Buy different types of Uber accounts

4. Membership Purchase

Purchase different levels of membership: Pro, Pro Max, Ultra, etc.

View membership details and benefits

5. User Information

View personal information such as balance, membership status, etc.

View transaction history

? Order Service in Detail – IMAP Mode

Requirements

Valid Uber Eats account (email),

DaisySMS API key for verification purposes,

Address Jog: Slight change to address to improve success,
Add Priority: Prioritize order for faster delivery,
Copy Receipt: Generate shareable receipt(Great for B4U User)

but no luck yet in actually finding the membership or bot that they are talking about.
if someone could help that would be great thank you

Lmk if you find anything out or sell the method cuz I actually relate to the first paragraph you wrote then came across this site. Doing anything lol but it sounds like you're getting close to cracking the method

temno - November 16, 2025, 4:04 pm

you used to be able to use bluestacks but they patched ut [warn]

Richadam86 - November 16, 2025, 8:59 pm

if anyone has the bot they are tryna sell please message me im tryna buy asap please and thanks [warn]
