Thread: [Does combolist cracking still work nowadays?](#)

theFoxe - November 7, 2025, 9:01 am

Is this still a thing? I remember cracking thousands of accounts back in the day using a software called openbullet.

DramaKing - November 7, 2025, 11:28 am

Combolists (which are prohibited to discuss here) need to be cracked?

RangoWorld - November 7, 2025, 11:36 pm

Woah. You are talking about a very old era

You might be able to if you know the username and a large list like rockyou and others - like Admin:*guess* or root:*guess* But... leave peoples accounts alone bro.

Agreed, OP should do what they need to do with their own accounts for marketing, social, etc

No need to hack normal citizens in bulk when you can run bots, and easier than ever with LLMs for chat responses in realtime w/ people on socials
