**jala1616** - November 7, 2025, 10:27 pm

Hello everyone,

I'm offering a fully verified account with selfie verification, fully functional and ready to use immediately.

? Deposit method enabled: Skrill

? Includes working proxy currently in use, tested and stable.

? No QR required: the account does not ask for any QR code or additional verification step.

? Everything is checked and verified before delivery so you can start using it right away without issues.

? Price: USD 200

I can provide a live demonstration (for example via AnyDesk) to confirm everything is working before completing the deal.

I also accept transactions through escrow, to ensure full safety for both buyer and seller.

? Interested buyers can send me a private message for details, screenshots, videos, or specific country info about the account.
