Thread: [Left Over Shitty Injection Exploit \[\\$10 \]](#)

Money- - November 9, 2025, 8:22 pm

I have some left over vulnerability back in the day , I don't want anymore.

To make it simple I think this vulnerability is useful for IP logging only though.

That's about it. Like legit useful for IP logging , u can get anyone with this just ask them to visit a forum board like legit forum board that's it. Easy.

Nothing shady at all or malicious to begin with. But the exploit will extract directly... depending on what payload you wana use.

Maybe someone better than me can escalate the IP logging impact to something better. Up to you.

Nothing special but yea just some shitty left over stuff.

Let me know , thanks!

In other words is just some shitty XSS I don't want anymore.

Crypto payment. Prefer LTC.

Yes bro , its a disposable stuff. I don't want it. Funny I still make some sales off it.

Let me know if you down. Just a damn petty \$10 for something still useful for pulling IPs.

Does it work on any community board? For example, Reddit, etc.—anything?

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
