Thread: [Brute Force TOOL PYTHON](#)

MyWorld - November 17, 2025, 3:39 am

Here is a free BRUTUS Brute Force tool made with python. Tell me your opinions. This tool is made SSH for Brute Force testing.

Want to know more? DM me!

Right on cool you're working on tools if you made it, wonder how it compares speed wise to Hydra and Medusa?

Ohhh are you sharing the public one on Github from 2 years back?

I have a fantastic idea, I am sure you will take it to heart.

No one here has high status. The pixels don't mean shit to anyone but themselves or anyone else into that.

The idea is; We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

This forum has nearly been around as long as you've been alive by the quality of your post as an estimation of your age. I am sorry for being a bit rude, but honestly. You're basically asking for it with how you're posting. So if you're a troll looking to laugh at forum users, go back to Le 9 Gog like a true gentlesir.
