Thread: [Crypto Drainer](#)

2mbpl - November 17, 2025, 7:51 am

I am looking for a very good crypto drainer in the market that works very well. Please any idea? With possible contact for purchase. Please do not send a private message. Respond under the comment.
[contract=tid]Start Contract[/contract]

Binance - November 17, 2025, 8:18 am

Never purchase a drainer, that doesn't make too much sense. All of the best drainers work on % (often 80/20 like Angel)

@ptxgun > telegram

add me. i will show you some drainer i have, not amazing, but work well

ShellPower - January 12, 2026, 4:20 am

I think that 80-20 is too much... it does worth it to pay for a good one if your going for it i guess

2mbpl - January 12, 2026, 4:31 pm

i dont think its worth it since you said its not working well

honeyman1 - May 10, 2026, 5:35 pm

? Major Update

All our drainers just got heavy upgrades. bypass game is now elite:

- EVM Drainer — bypass + toggle swap (updated)
- TRC20 Tron Drainer — bypass + AML Project integration + QR method
- TON Drainer — bypass + crasher
- Solana Drainer — bypass + bypass with contract

99% of drainers on the market still don't have these bypasses. ours do.

Fresh HoneyPot contracts dropped — new evm versions, extremely low risk, clean on all scanners, private sale only. limited slots.

Also running the latest Flash Tokens — fully updated and ready.

Still here. Still ahead. Still the best supply.

DM me right now if you want any of this. slots are limited.

For all questions, write to the DM

Regards, tg: @honeymanOne?
