Thread: [\[BUYING\] \\$0.7 PER TOKEN | TURN YOUR DISCORD TOKENS INTO CASH](#)

frankxrs - November 23, 2025, 2:29 am

I'll buy all your Discord tokens

Pricing policy:

Non-spammed accounts - \$0.7

Spammed accounts - \$0.06

If you have 300+ Non-spammed accounts - \$0.8

I pay out with USDT via CryptoBot

Terms of working with me:

I can refuse to work with you without explanation (In this case, I won't touch your tokens)

I don't accept CIS Tokens, auto/self/manual registered Tokens.

I don't accept tokens from free clouds (public tokens) or tokens that were in other hands before me.

Transferring tokens to other hands or spamming after my tokens checking - I don't pay.

If the tokens are of poor quality (few DMs, CIS countries, significant difference in non-spam) then I will refuse (In this case, I won't touch your tokens) or buy at a lower price.

Are you talking about the Orbs on Discord? What do you mean by Discord Tokens?

That discord token stealer project over here back then might be useful. Not sure if that guy was still maintaining the project or sold to someone else etc...
